

## The gold standard of accuracy in the lab industry

Vibrant's Cardiac Health Panel is a blood test to assess the risk of cardiovascular and related diseases by measuring lipids, apolipoproteins, lipoproteins, and markers of inflammation.

### Cardiac Health Panel Markers List

Lipids	Inflammation	Apolipoproteins	Lipoprotein Markers	Myocardial Stress
Total Cholesterol	PLAC - Lipoprotein-associated phospholipase A2 (formerly called Lp-PLA <sub>2</sub> )	Apolipoprotein A-1	Small Dense LDL	NT-ProBNP
LDL Calculation		Apolipoprotein B		
HDL Direct		ApoB: ApoA-1 <sup>1</sup>	Lipoprotein (a)	
Cholesterol/HDL Ratio	Homocysteine			
Triglycerides	hs-CRP - high sensitivity C-reactive protein			
LDL Direct				
	Oxidized LDL			
	Myeloperoxidase
