

Wheat Zoomer

Who Will Benefit From Wheat Zoomer Testing?

The Wheat Zoomer panel assesses sensitivity to wheat, autoimmune disease, and intestinal barrier stability.

If you suspect you have wheat sensitivity, multiple food sensitivities, intestinal permeability, autoimmune disorders, or chronic inflammation, you may benefit from this panel.

Recognizing Symptoms of Wheat Sensitivity

Symptoms include:

- Gastrointestinal inflammation (diarrhea or constipation; cramping; nausea; discomfort after eating)
- Excessive fatigue after meals
- Joint pains
- Lack of concentration/brain fog
- Diarrhea
- Bloating
- Gas
- Nausea
- Headaches, including migraines
- Neurological symptoms (memory loss, balance problems, numbness, tingling, anxiety)
- Eczema or psoriasis
- Low vitamin D levels

Uncover the root of your symptoms so you can build a personalized plan with your wellness provider to eliminate inflammatory dietary triggers, balance your gut, and improve your lifestyle.

Why Is This Test Important?

- One out of seven Americans is at least somewhat sensitive to wheat
- Wheat sensitivity can/may contribute to leaky gut, autoimmune disease (Celiac), and neurological symptoms
- Wheat sensitivity may damage the intestinal lining, causing further inflammation
- Chronic inflammation is associated with serious diseases, including heart disease, diabetes, cancer, arthritis, Crohn's disease, and ulcerative colitis
- Uncovering wheat sensitivities is an easy and critical step in developing a nutritional plan to reduce inflammation and prevent disease

The Wheat Zoomer tests for:

- Celiac Disease
- Intestinal permeability
- Wheat germ sensitivity (lectin)
- Gluten sensitivity
- Gluten-induced autoimmunity
- Non-gluten wheat sensitivity

The Vibrant Wellness Advantage

- **Simple testing with robust results.** Perform the Wheat Zoomer test in the comfort of your home, or work with your provider to find a convenient testing center.
- **Unparalleled specificity and sensitivity.** Our proprietary technology detects:
 - Wheat sensitivity with >99% accuracy and 100% specificity
 - IgE, IgA, and IgG antibodies
 - Celiac markers
 - Intestinal permeability

Validated and accredited. Science-backed testing and analysis based on rigorous, ongoing research by clinical experts.

What To Expect From the Test

- Follow our simple instructions to perform this test at home.
- Before testing:
 - No need to fast—consume your normal diet.
- Send the test to our lab for analysis and work with your care provider to understand the results.

About Vibrant Wellness

Vibrant Wellness is a leading CLIA-certified and CAP-accredited biotech company based in San Carlos, CA. We deliver life-transforming lab testing that enables health and wellness providers to discover the root of patient health issues.

We're at the forefront of modern medicine and research, providing personalized health analytics using cutting-edge, high-quality technology. We believe that anyone can achieve better health and vibrant longevity through individualized solutions based on testing—not guessing.

Regulatory Statement

The general wellness test intended uses relate to sustaining or offering general improvement to functions associated with a general state of health while making reference to diseases or conditions. This test has been laboratory developed and its performance characteristics determined by Vibrant America LLC and Vibrant Wellness, CLIA-certified and CAP-accredited laboratory performing the test. The test has not been cleared or approved by the U.S. Food and Drug Administration (FDA). Although FDA does not currently clear or approve laboratory-developed tests in the U.S., certification of the laboratory is required under CLIA to ensure the quality and validity of the tests.
